TM

AGENDA TITLE: Set Public Hearing for **November 3, 2004**, to Consider Resolution Adopting Amended Impact Mitigation Fees for Storm Drainage, Streets and Roads, and Parks and Recreation

MEETING DATE: September 15, 2004

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council set a public hearing for **November 3, 2004**, to consider a resolution adopting amended Impact Mitigation Fees for Storm Drainage, Streets and Roads, and Parks and Recreation.

BACKGROUND INFORMATION: City Council adopted Resolution 2001-242 amending Development Impact Mitigation Fees for all developments within the City on October 17, 2001. The report, "Development Impact Fee Update Study", prepared by Harris & Associates, was benchmarked to June 30, 1999, for determining future IMF program capital expenditures. The fees set by Resolution 2001-242 included an adjustment to January 1, 2001, using the ENR Twenty Cities Construction Cost Index. Subsequently, all IMF fees have been adjusted using that ENR index on January 1, 2002; January 1, 2003; and January 1, 2004.

Staff is requesting City Council approval of amended fees for Storm Drainage, Streets and Roads, and Parks and Recreation. A summary of the existing and proposed fees per Residential Acre Equivalent is provided in Attachment 1. The amendments adjust for increased raw land costs, added regional transportation projects and recalculation of the impact fees based upon project costs and remaining vacant land for development. **A public meeting to review and discuss the proposals has been set for October 12, 2004, at 2:00 p.m. at the Carnegie Forum.**

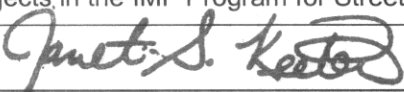

In the report "Development Impact Fee Update Study", a land cost basis of \$120,000 (1999 dollars) per acre was used to determine project costs involving the purchase of land. Land prices for one completed land purchase (DeBenedetti Park) and one pending land purchase (Century Meadows Park) are very close to the assumed cost basis given the annual ENR based indexing of the fee.

Recent reported significant increases in raw land costs to \$300,000 per acre will alter the future ability of the Impact Mitigation Fee program to purchase storm drain basin and park land for the remainder of the program. Storm drain and park sites west of Lower Sacramento Road are the only sites affected by the increased land cost. Exhibits G, Storm Drain Projects, and O, Parks Projects, from the "1999 Development Impact Fee Update Study" are attached. Project costs in the exhibits have been updated to June 30, 2004, incorporating 1) the higher land cost basis, 2) reducing project costs by prior project expenditures, and 3) applying ENR indexing factors to June 30, 2004. Two projects (future F-Basin/Park and future I-Basin/Park) are affected by the land cost basis increase, and they are presented in **bold**. The Total Project Costs identified in each exhibit represent the total cost of remaining projects currently in the IMF program.

Calculations to determine the fees required to fund the Project Costs (June 30, 2004) are presented in Attachments 2 and 3 for Storm Drainage and Parks and Recreation, respectively. The Total RAE's Added represent the development served by the remaining projects. The resultant fees are \$17,264 per Residential Acre Equivalent (RAE) for Storm Drainage and \$27,295 per RAE for Parks and Recreation. The proposed fees represent an increase of 49% and 37%, respectively.

Exhibit I, Streets/Roads/Traffic Projects, from the Development Impact Fee Update Study is attached and has been updated to June 30, 2004, incorporating 1) reductions in project costs resulting from prior project expenditures and 2) applying ENR indexing factors to adjust project costs to June 30, 2004. The Total Project Costs identified in Exhibit I represent the total cost of remaining projects in the IMF Program for Streets and Roads.

APPROVED:

Janet S. Keeter, Interim City Manager

Calculations to determine the fees required to fund the Project Costs (June 30, 2004) are presented in Attachment 4. The Total RAE's Added represent the development served by the remaining projects. The amended Streets and Road Fee is \$11,281, an increase of 39% above the existing fee.

Two additional amendments to the Streets and Roads portion of the IMF Program are recommended. The first adds the project "Lower Sacramento Road – Eight Mile Road to the Harney Curve" to the IMF Program. The Lower Sacramento Road Special Purpose Plan reported that the majority of new trips on this County highway are generated by the Cities of Lodi and Stockton with less than 2 percent of new trips coming from County development. Although this County highway is part of the Measure K Program, only \$11.5 million is programmed to construct the \$20 million project. Recognizing the importance of this County highway to the City of Lodi and working with County Public Works, a project cost sharing plan was developed that assigns approximately \$4.2 million in project costs to the City of Lodi. The cost share is based upon the percentage of new trips added by development within the Lodi General Plan. Approximately 50 percent of the new trips and, therefore, improvement costs are attributed to development in Lodi. Attachment 5 presents the new component of the Streets and Roads fee for the Lodi share of the financing for Lower Sacramento Road – Eight Mile Road to the Harney Curve. The calculation of the Total RAE's differs from the current IMF Program in that it includes the Planned Residential Reserve land south of Harney Lane. A nexus exists because the Lower Sacramento Special Purpose Plan assumed development in this area as part of the traffic model and determination of improvements required on this segment of Lower Sacramento Road. The Streets and Roads Fee increases \$798 by amending the Project List to include Lower Sacramento Road – Eight Mile Road to the Harney Curve.

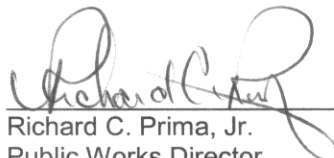

The second amendment to the Streets and Roads program adds a Regional Traffic Impact Fee (RTIF) for Mainline Highway Improvements within the County in the amount of \$8,135 per RAE. The San Joaquin Council of Governments adopted a resolution at the February 26, 2004, meeting requesting each member jurisdiction to adopt a Regional Transportation Impact Fee (see Attachment 6). The Draft San Joaquin Regional Transportation Impact Fee Technical Report, July 2003 (Report) specified projects by category (Mainline Highway Improvements, Interchange Improvements, and Regional Street Improvements) and determined the cost share based upon the demand presented by new development in four quadrants of the County (North, Central, South, and Tracy).

The Report determined that the fair share of project costs for Mainline Highway Improvements for the North Area (Lodi and north County) is \$1,627 per single family residential unit. The project listing and fair share cost distribution from the report is presented in Attachment 7. Converting this fee to Lodi's RAE based fee structure, assuming a residential density of 5 single family units per acre, yields an equivalent Lodi fee of \$8,135 per RAE. Staff recommends inclusion of the Mainline Highway Projects in the Streets and Roads Fee Program, and staff recommends against inclusion of the Interchange Improvements and Regional Streets components of the Report in the fee program, at this time. It is anticipated that these project costs will be incorporated in the Reauthorization of the Measure K program or through impact fee amendments similar to the Lower Sacramento Road amendment recommended above.

The Summary of Existing 2004 Development Impact Fees for All Services is provided in Attachment 8. A Summary of Amended 2004 Development Impact Fees for All Services is provided in Attachment 9. The percentage increase in the total fee for all services is 47 percent.

SJCOG staff recommended a County-wide RTIF of \$1,500 per single family unit for the package of mainline, interchange and regional streets improvements. Additional discussion will be presented to Council regarding the options for setting the RTIF.

Lodi, CA 95241-1910

Dear Mayor Hansen:

The San Joaquin Council of Governments adopted the attached resolution at their February 26, 2004 meeting. The motion was adopted by the SJCOG Board as a proposal to each of the member jurisdictions requesting the adoption of a Regional Transportation Impact Fee and further proposing the Regional Transportation Impact fee be the same in each jurisdiction.

The Council of Governments Board of Directors also authorized SJCOG staff to be available, upon request, to assist each jurisdiction in the preparation and adoption of such a fee. Please contact Julia E. Greene, Executive Director of the San Joaquin Council of Governments if you have any questions regarding the Regional Transportation Impact fee or a request for staff assistance.

Sincerely yours,

GLORYANNA RHODES
Chair
San Joaquin Council of Governments

RESOLUTION SAN JOAQUIN COUNCIL OF GOVERNMENTS

R-04-23

RESOLUTION FOR THE ADOPTION OF A REGIONAL TRANSPORTATION IMPACT FEE (RTIF)

WHEREAS, the San Joaquin Council of Governments is a Joint Powers Authority comprised of the County of San Joaquin and the Cities of Stockton, Lodi, Manteca, Tracy, Ripon, Escalon and Lathrop; and,

WHEREAS, the San Joaquin Council of Governments is the officially designated Metropolitan Planning Organization and Regional Transportation Planning Agency for San Joaquin County; and,

WHEREAS, the San Joaquin Council of Governments is responsible for the delivery and administration of Measure K, the ½ cent sales tax measure to fund critically needed transportation projects throughout the San Joaquin Region; and,

WHEREAS, the following language in the Measure K Ordinance identifies the intent to establish a Regional Transportation Impact Fee (RTIF); and,

SECTION 5. LOCAL AND REGIONAL TRAFFIC MITIGATION FEES. In order to receive funds from the Local Road and Street Maintenance and Improvement Fund, a city and the County of San Joaquin must have adopted a traffic fee program to assist in mitigating the impact of new development on the local transportation system. The Authority shall develop criteria for these traffic mitigation fees. Local traffic mitigation fees shall be in place in all communities for the fiscal year commencing with July 1, 1991. Should a jurisdiction not have a qualifying local traffic impact mitigation fee in place by the last day of the fiscal year, then all revenue apportioned to that community under the Local Street Repair Fund will be reapportioned for the following fiscal year among all the eligible jurisdictions based on the adopted formula.

It is the intent of this ordinance to have adopted in San Joaquin County by January 1, 1993, a Regional Traffic Mitigation Fee program to assess new development for its impacts that go beyond the local circulation system. Failure to achieve this date does not effect other provision of this ordinance.

WHEREAS, an interim RTIF of \$454 was adopted by some jurisdictions in 1994 with the understanding that a permanent fee would be established based on an AB 1600 study; and

WHEREAS, each local jurisdiction is urged to develop and adopt a Regional Transportation Impact Fee, and will have the latitude, at a minimum, to conduct the following:

- ✓ Calculate and establish the Regional Transportation Impact Fee program fee amount.
- ✓ Set the administrative parameters.
- ✓ Determine the regionally significant projects that are a part of the Regional Transportation Plan that will be recognized by the local Regional Transportation Impact Fee.

WHEREAS, the San Joaquin Council of Governments' staff and resources will be available to assist, upon request, every jurisdiction in establishing a Regional Transportation Impact Fee; and

NOW, THEREFORE, BE IT RESOLVED that each jurisdiction recognized under the San Joaquin Council of Governments as a Joint Powers Authority is urged to adopt a permanent Regional Transportation Impact Fee.

PASSED AND ADOPTED, this 26th day of February 2004, by the following vote of the San Joaquin Council of Governments Board of Directors.

Mailing List Attached
SUBJECT: Set Public Hearing for October, 20, 2004, to Consider Resolution Adopting
Amended Impact Mitigation Fees for Storm Drainage, Streets and Roads, and
Parks and Recreation

Enclosed is a copy of background information on an item on the City Council agenda of
Wednesday, September 15, 2004. The meeting will be held at 7 p.m. in the
City Council Chamber, Carnegie Forum, 305 West Pine Street.

As indicated in the title, the only action will be to set a public hearing date on the item.
Public hearings are usually set for the second following Council Meeting.

If you wish to write to the City Council, please address your letter to City Council,
City of Lodi, P. O. Box 3006, Lodi, California, 95241-1910. Be sure to allow time for the
mail. Or, you may hand-deliver the letter to City Hall, 221 West Pine Street.

If you wish to address the Council at the Council Meeting, be sure to fill out a speaker's card
(available at the Carnegie Forum immediately prior to the start of the meeting) and give it to
the City Clerk. If you have any questions about communicating with the Council, please
contact Susan Blackston, City Clerk, at (209) 333-6702.

If you have any questions about the item itself, please call Wally Sandelin, City Engineer, at
(209) 333-6709.

PROOF OF PUBLICATION

(2015.5 C.C.C.P.)

STATE OF CALIFORNIA

County of San Joaquin

I am a citizen of the United States and a resident of the County aforesaid: I am over the age of eighteen years and not a party to or interested in the above entitled matter. I am the principal clerk of the printer of the Lodi News-Sentinel, a newspaper of general circulation, printed and published daily except Sundays and holidays, in the City of Lodi, California, County of San Joaquin and which newspaper had been adjudicated a newspaper of general circulation by the Superior Court, Department 3, of the County of San Joaquin, State of California, under the date of May 26th, 1953. Case Number 65990; that the notice of which the annexed is a printed copy (set in type not smaller than non-pareil) has been published in each regular and entire issue of said newspaper and not in any supplement thereto on the following dates to-wit:

September 18th, 25th

all in the year 2004.

I certify (or declare) under the penalty of perjury that the foregoing is true and correct.

Dated at Lodi, California, this 25th day of September, 2004

CITY OF LODI
Carnegie Forum
305 West Pine Street, Lodi

NOTICE OF PUBLIC HEARING

Date: November 3, 2004

Time: 7:00 p.m.

For information regarding this notice please contact:

Susan J. Blackston
City Clerk
Telephone: (209) 333-6702

NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that on **Wednesday, November 3, 2004** at the hour of 7:00 p.m., or as soon thereafter as the matter may be heard, the City Council will conduct a Public Hearing at the Carnegie Forum, 305 West Pine Street, Lodi, to consider the following matter:

- a) resolution adopting amended Impact Mitigation Fees for Storm Drainage, Streets and Roads, and Parks and Recreation.

Information regarding this item may be obtained in the office of the Public Works Department, 221 West Pine Street, Lodi, California. All interested persons are invited to present their views and comments on this matter. Written statements may be filed with the City Clerk at any time prior to the hearing scheduled herein, and oral statements may be made at said hearing.

If you challenge the subject matter in court, you may be limited to raising only those issues you or someone else raised at the Public Hearing described in this notice or in written correspondence delivered to the City Clerk, 221 West Pine Street, at or prior to the Public Hearing.

By Order of the Lodi City Council:

A handwritten signature in black ink, appearing to read "Susan J. Blackston", written over a horizontal line.

Susan J. Blackston
City Clerk

Dated: September 16, 2004

Approved as to form:

A handwritten signature in black ink, appearing to read "D. Stephen Schwabauer", written over a horizontal line.

D. Stephen Schwabauer
City Attorney

DECLARATION OF POSTING
